

Allen County Fair Concert Line Lottery

The Allen County Fair uses a line lottery system to determine the first person in line. Beginning at approximately 8:45 a.m. everyone in line will receive one consecutively numbered ticket. At approximately 8:55 a.m. one number will be drawn. The holder of that number will be the first person in line. The rest of the line will follow in numerical order. For example: If #95 is drawn, then #96 will be second, #97 will be third and so on. In this case #94 will be the last person in line. All those who arrive after the number has been drawn will be directed to proceed to the end of the line.
